CURRICULUM VITAE

Ayman El Hammoudi

Sales Adviser · Retail and sales · Entrepreneur and web designer

North Holland · aymanae075@gmail.com · 06 1906 7349

PROFILE

Commercially minded sales adviser with experience in telecommunications retail, door-to-door sales, customer service, marketplaces and independent business. Strong in active listening, needs analysis and presenting suitable options clearly. Combines personal customer contact with a results-focused approach, ownership and practical digital knowledge.

EXPERIENCE & SALES

VodafoneZiggo — Sales Adviser

JULY 2025 – PRESENT · TELECOMMUNICATIONS RETAIL

In a customer-facing retail environment, I advise consumers on telecommunications products, plans and additional services. I combine attentive service with commercial awareness and look for a solution that suits each customer's needs and circumstances.

- Identify customer needs by listening carefully and asking focused questions.
- Compare and explain products, plans and additional services in clear language.

High-ticket closing — Sales Closer · e-commerce coaching

PREVIOUS SALES EXPERIENCE · HIGH-TICKET SALES

As a high-ticket closer, I spoke with established e-commerce entrepreneurs who wanted to grow further. I assessed whether support from an experienced coaching company suited their next stage and connected them with that company and its coaches. The programmes were worth several thousand euros, and many entrepreneurs who took the step went on to increase their revenue with the coaches' help.

- Conduct sales conversations with entrepreneurs who already ran an e-commerce business.
- Map out ambitions, challenges and the potential fit with a coaching programme.

Door-to-door sales — Direct sales · telecommunications and energy

PREVIOUS EXPERIENCE · DIRECT SALES

In door-to-door sales, I sold services from Budget Thuis, Odido and KPN. I approached prospective customers, quickly assessed their situation and presented a suitable offer in a personal conversation.

- Open new conversations independently and establish rapport quickly.
- Explore a prospect's situation and potential needs within a short conversation.

The Secret Skill — Sales Representative · course sales

2020 · SALES EDUCATION

In 2020, I worked in sales for The Secret Skill, then led by Rébien Ghazali. I spoke with prospective participants about a course designed to develop their sales skills.

- Discuss the interests and learning goals of prospective participants.
- Explain the course content and assess its relevance to their goals.

OPPO — Brand Ambassador

PREVIOUS EXPERIENCE · SMARTPHONES AND BRAND ACTIVATION

I represented OPPO in telecommunications retail. The role centred on product demonstrations, accessible explanations and a consistent presentation of the brand.

- Demonstrate smartphones and explain key features in accessible language.
- Connect product benefits to the needs of different users.

Picnic — Warehouse Order Picker

PREVIOUS EXPERIENCE · E-COMMERCE LOGISTICS

I gained hands-on experience as an order picker in a Picnic fulfilment centre. I collected and checked groceries within established processes, where accuracy, a consistent pace and coordination with colleagues were essential.

- Collect orders using the designated warehouse route and process.
- Check products and quantities before each order moved to the next stage.

Coop — Store Assistant

PREVIOUS EXPERIENCE · GROCERY RETAIL

On the shop floor, I contributed to customer service, product presentation and day-to-day store operations. This environment gave me a practical foundation in service, reliability and teamwork.

- Assist customers and answer practical questions on the shop floor.
- Help maintain a tidy, accessible and welcoming store presentation.

PLUS — Store Assistant

PREVIOUS EXPERIENCE · GROCERY RETAIL

At PLUS, I gained further experience in customer contact and practical store operations within a dynamic environment where service and presentation go hand in hand.

- Provide approachable and helpful assistance to customers.
- Contribute to tidy shelves and a well-organised store.

ENTREPRENEURSHIP

bol — Seller · marketplace partner

2021 – PRESENT · MARKETPLACE

I have sold products through bol, the largest online store in the Netherlands and Belgium, since 2021. This has given me practical experience in product selection, listings, online sales and the day-to-day attention required to operate on a marketplace.

Amazon — Seller · Seller Central

ONE YEAR · MARKETPLACE

I spent one year selling through Amazon, an international marketplace. I used both Fulfilment by Amazon (FBA), with my products shipped from Amazon's warehouse, and shipping from my own stock (Fulfilled by Merchant, FBM).

Independent online stores — E-commerce Entrepreneur

MULTIPLE VENTURES · ONLINE STORES

I set up several online stores and successfully sold clothing, home and kitchen products, baby toys and electronics.

Renewable energy — Owner · solar-panel and EV-charger sales

2018 – 2020 · OWN BUSINESS

From 2018 to 2020, I built a business in renewable energy. Working with a Dutch supplier, I sold solar panels and electric-vehicle chargers. During the COVID-19 period, a shortage of installers and rising product and purchasing costs reduced margins. I therefore sold the business at a profit in 2020.

Buying & selling online stores — Online-store acquisition broker

PREVIOUS EXPERIENCE · ACQUISITIONS

I acquired online stores and websites and sold them on. I also helped entrepreneurs who wanted to start something new sell their existing online store: I brought buyer and seller together, guided the sale and earned a commission.

Furniture e-commerce — Online Sales Partner for a Dutch furniture company

PREVIOUS VENTURE · PARTNERSHIP

I sold products online for a Dutch furniture company. This partnership combined e-commerce with the digital presentation of an established product range.

Independent business — Website development and web design

PRESENT · DIGITAL SERVICES

As an independent web designer, I guide business owners from the initial brief to a practical online presence. My work combines client communication, information architecture, visual design and technical implementation.

EDUCATION

Secondary vocational education (MBO), Financial Administration — ROC TOP

SKILLS

Consultative selling · Needs analysis · Door-to-door sales · Closing · Marketplace sales · E-commerce · Web design · WordPress · Shopify · Order picking
